The enclosed information should be read in conjunction with the Company's filings with the U.S. Securities and Exchange Commission ("SEC"), including, but not limited to, the Company's Form 10-Qs filed quarterly and Form 10-Ks filed annually. Additionally, the enclosed information does not purport to disclose all items required under U.S. Generally Accepted Accounting Principles ("GAAP"). The information provided in this supplemental is unaudited and includes non-GAAP measures (as discussed herein), and there can be no assurance that the information will not vary from the final information in the Company's Form 10-Q for the quarter ended June 30, 2025. Forward-Looking Statements Disclaimer

Forward-Looking Statements in this supplemental, which are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements are based on the current beliefs and expectations of InvenTrust's management and are subject to significant risks and uncertainties. Actual results may differ materially from those described in the forward-looking statements. Any statements made in this supplemental that are not statements of historical fact, including statements about our beliefs and expectations, are forward-looking statements. Forward-looking statements include information concerning possible or assumed future results of operations, including our guidance and descriptions of our business plans and strategies. These statements often include words such as "may," "should," "could," "would," "expect," "intend," "plan," "seek," "anticipate," "believe," "estimate," "target," "project," "predict," "potential," "continue," "likely," "will," "forecast," "outlook," "quidance," "suggest," and variations of these terms and similar expressions, or the negative of these terms or similar expressions.

The following factors, among others, could cause actual results, financial position and timing of certain events to differ materially from those described in the forward-looking statements: interest rate movements; local, regional, national and global economic performance; the impact of inflation on the Company and on its tenants; competitive factors; the impact of e-commerce on the retail industry; future retailer store closings; retailer consolidation; retailers reducing store size; retailer bankruptcies; government policy changes, including the effects of recent new tariffs and changes in global trade policies on the overall state of the economy; and any material market changes and trends that could affect the Company's business strategy. For further discussion of factors that could materially affect the outcome of management's forward-looking statements and IVT's future results and financial condition, see the Risk Factors included in the Company's most recent Annual Report on Form 10-K, as updated by any subsequent Quarterly Report on Form 10-Q, in each case as filed with the SEC. InvenTrust intends that such forward-looking statements be subject to the safe harbors created by Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, except as may be required by applicable law.

IVT cautions you not to place undue reliance on any forward-looking statements, which are made as of the date of this supplemental. IVT undertakes no obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If IVT updates one or more forward-looking statements, no inference should be drawn that IVT will make additional updates with respect to those or other forward-looking statements.

Notice Regarding Non-GAAP Financial Measures

In addition to GAAP measures, this supplemental contains and refers to certain non-GAAP measures. Management does not consider the Company's non-GAAP measures included in the Glossary of Terms to be alternatives to measures required in accordance with GAAP. Certain non-GAAP measures should not be viewed as an alternative measure of IVT's financial performance as they may not reflect the operations of the entire portfolio, and they may not reflect the impact of general and administrative expenses, depreciation and amortization, interest expense, other income (expense), or the level of capital expenditures and leasing costs necessary to maintain the operating performance of IVT's properties that could materially impact IVT's results from operations. Additionally, certain non-GAAP measures should not be considered as an indication of IVT's liquidity, nor as an indication of funds available to cover IVT's cash needs, including IVT's ability to fund distributions, and may not be a useful measure of the impact of long-term operating performance on value if management does not continue to operate the business in the manner currently contemplated. Accordingly, non-GAAP measures should be reviewed in connection with other GAAP measurements, and should not be viewed as more prominent measures of performance than net income (loss) or cash flows from operations prepared in accordance with GAAP. Other REITs may use different methodologies for calculating similar non-GAAP measures, and accordingly, IVT's non-GAAP measures may not be comparable to other REITs. Reconciliations of the Company's non-GAAP measures to the most directly comparable GAAP financial measures are included on pages 6 and 7 and definitions of the Company's non-GAAP measures are included in the Glossary of Terms on page 21.

⁽¹⁾ The Company's 2025 guidance excludes projections related to gains or losses on dispositions, gains or losses on debt transactions, and depreciation, amortization, and straight-line rent adjustments related to acquisitions and dispositions.

In addition to the foregoing assumptions, the Company's 2025 guidance incorporates a number of other assumptions that are subject to change and may be outside the control of the Company. If actual results vary from these assumptions, the Company's expectations may change. There can be no assurances that InvenTrust will achieve these results.

The following table provides a reconciliation of the range of the Company's 2025 estimated net income per diluted share to estimated Nareit FFO and Core FFO per diluted share:

This earnings release does not include a reconciliation of forward-looking SPNOI to forward-looking GAAP Net Income because the Company is unable, without making unreasonable efforts, to provide a meaningful or reasonably accurate calculation or estimation of certain reconciling items which could be significant to the Company's results.

The Company's 2025 guidance includes an expectation of uncollectibility, reflected as 65 - 85 basis points of expected total revenue.

⁽³⁾ Core FFO per diluted share excludes amortization of market-lease intangibles and inducements, debt extinguishment charges, straight-line rent adjustments, depreciation and amortization of corporate assets, and non-operating income and expense.

⁽⁴⁾ Interest expense, net, excludes amortization of debt discounts and financing costs, and expected interest income of approximately \$2.8 million.

⁽⁵⁾ Net investment activity represents anticipated acquisition activity less disposition activity.
